- Figma - Git/Github
- Problem solving - debugging
- Communications Skills
- Troubleshooting

PROJECTS EXPERIENCE

E-Commerce App - React

[Live Demo](#)

Description : Fresh Cart is a dynamic, React-based e-commerce platform designed for a seamless, secure shopping experience. With features like Wish list, responsive design via Bootstrap, and data management through React-query and Axios, it ensures optimal performance. Leveraging Context API for state management, JWT-based authentication, and interactive forms, Fresh Cart offers an engaging, secure, and user-friendly experience.

EDUCATION

faculty of Agriculture Engineering, Ain Shams University.

July 2016 - June 2021

Bachelor of Agriculture engineering

Route Academy diploma in Front-end web development.

Dec 2023 - Feb 2024
